

ANGLE PICTORIAL PAIN MAPPING & PAIN RANKING COMPANION TOOL (A-PPMRT)

(Interviewer Administered Version)

- 1) Please think about your labor pain during the last 3 contractions, including the most recent one. DRAW a picture of each TYPE of Labor Pain you experienced using the diagrams below.**
- 2) Please name each type of pain you've drawn using the list provided below on the left. If none of these names are relevant, please provide your own name for your pain.** *(Interviewer please read the list and record the abbreviated pain name in the box below its picture. If more than one pain type is drawn on a diagram, draw a line between each pain name and its drawing. If the participant provides their own pain name for an image, please record the name next to the image).*
- 3) Please describe each pain drawn as intermittent (I), constant (C) or both (B).** *Interviewer please record answers in the relevant pain Timing Box.*
